

A game of patience

BEELOGIC

Ages 8 to 99

1 player

30 "challenge" cards (3 difficulty levels), 10 wooden pieces

★ Easy

★★ Medium

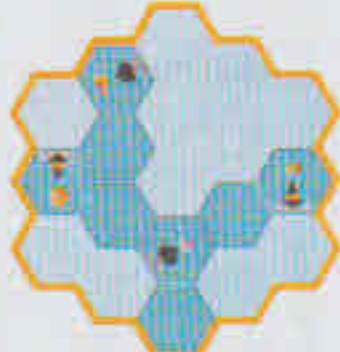

★★★ Difficult

Aim of the game: Place all the pieces on the "challenge" card to complete all the bees.

Playing the game: Place the 10 pieces and the "challenge" cards on the table. Take a "challenge" card. Place the required pieces directly on the card, in the right place and the right direction.

Tip: Each piece contains one half of a bee and specific decorative designs. Use these designs to make it easier to identify which pieces the "challenge" card requires.

Then try to complete the card by placing the remaining pieces and completing the bees.

There's just one solution for every challenge!

See solutions at the end of the booklet.
