

GAME RULES

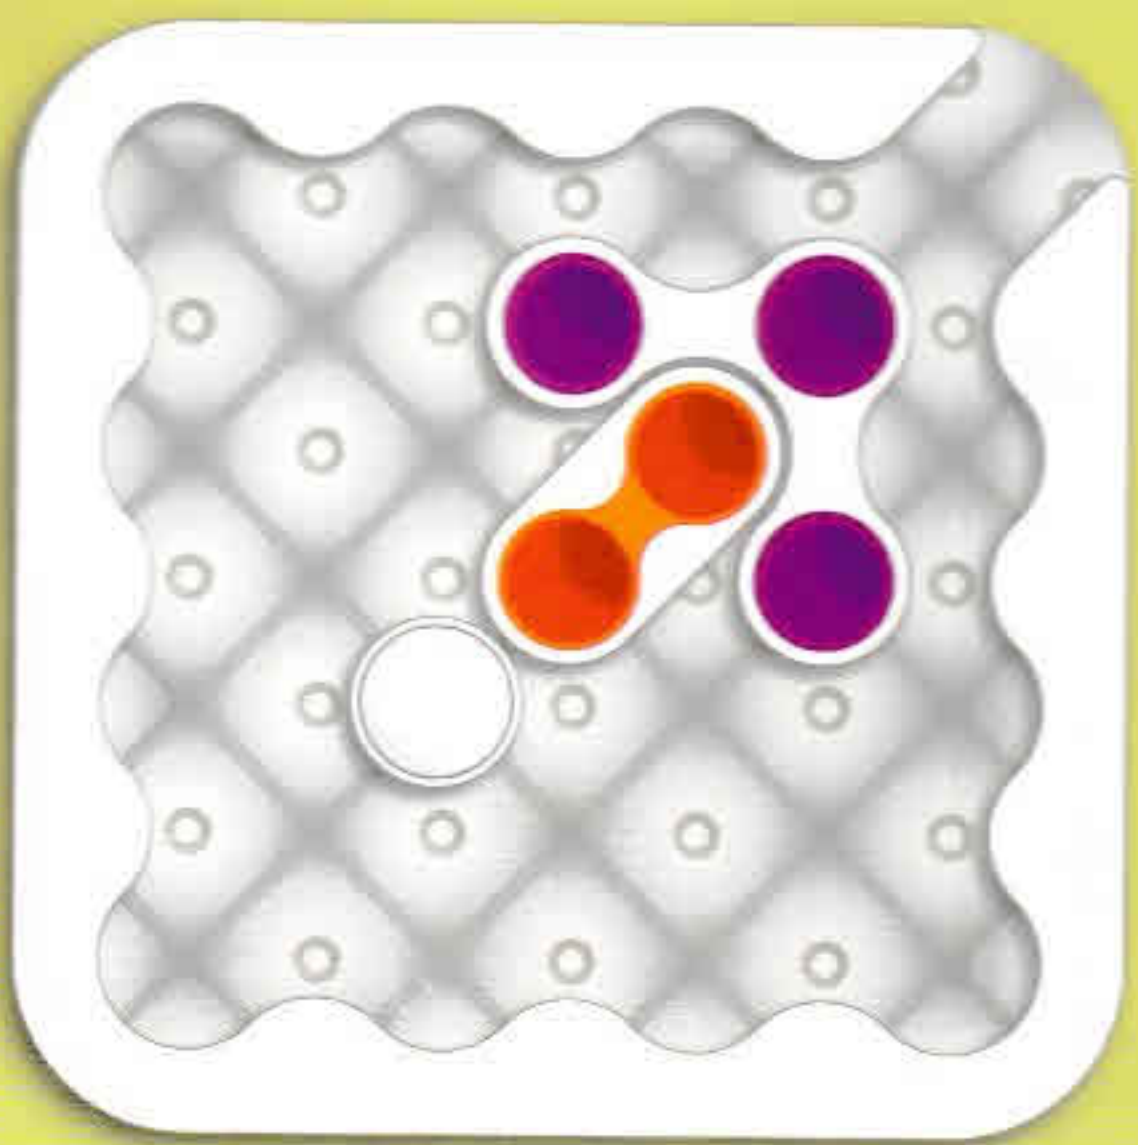

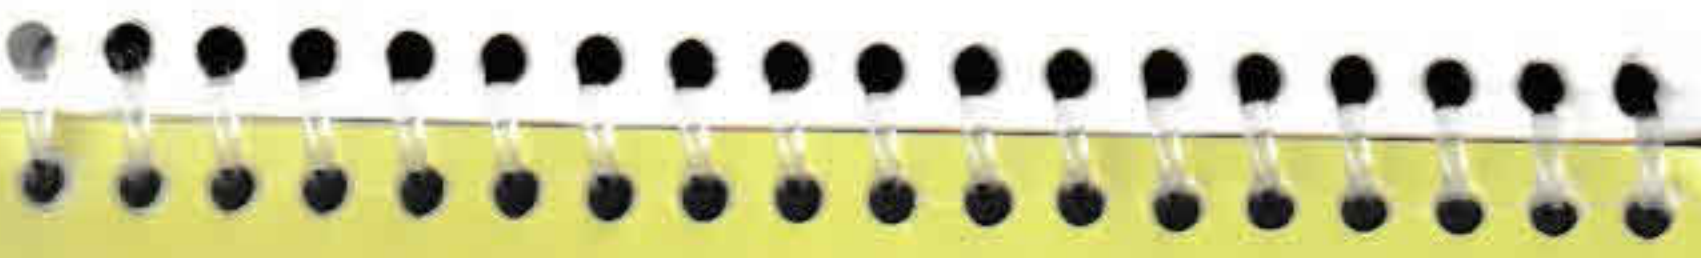

- 1** Choose a challenge and place all game pieces as indicated on the game board.
- 2** Move the game pieces around, so you can maneuver the virus (the red game piece) to the exit:
 - Game pieces can only slide diagonally, in 4 directions (diagram A). You must not move them horizontally or vertically or rotate them (diagrams B and C).
 - Sometimes you need to move pieces together as a group (diagram D).
 - You are allowed to push part of a game piece through the opening, to make space to move other game pieces around during your challenge (diagram E).
 - You can move all the game pieces except the small white ones. You should consider them part of the game board during that specific challenge.
- 3** You have found the solution when you can force the red virus completely through the opening and off the game board (diagram F).
Celebrate your success by taking on a new challenge!
